

gratianopolitanus
'Tiny Rubies'

zones 3-7 · ○ DIATR
Short grass-like tufted mounds with a multitude of double rose-pink flowers on 4-6" stems in May-June.

petraeus ssp. noeanus

zones 4-7 · ○ DIANO
This sub-species is indigenous to Albania and Yugoslavia. Dense mats reaching up to 12" bear white or pink flowers that are either single or in clusters. The petals may reach 3/8" in length. Good edging plant.

simulans

zones 3-7 · ○ DIASI
3" tightly tufted buns from mountainous Bulgaria. Sparse, single, deep rose flowers in spring.

subacaulis

zones 4-7 · ○ DIASU
Lovely blue-green cushion foliage with 2" bright pink flowers in May-June.

turkestanicus

zones 4-7 · ○ DIATU
Forms a tight blue-green 4-5" mat in spring, with 12" tall flowering stems bearing very fragrant flowers that are white with violet markings.

DORONICUM

Leopardbane

orientale 'Little Leo'

zones 3-7 · ○ ● DORLL
12-15" stems bear bright yellow flowers with medium, 2.5" semi-double blooms April-May. Compact habit.

DRABA

borealis

zones 4-7 · ○ DRABO
Carpet forming, to 6" tall, and covered with white blooms on short stems in spring.

aizoides

zones 3-7 · ○ DRAAI
Attractive 2-4" form. Deep green foliage with bright yellow flowers March-April.

borealis

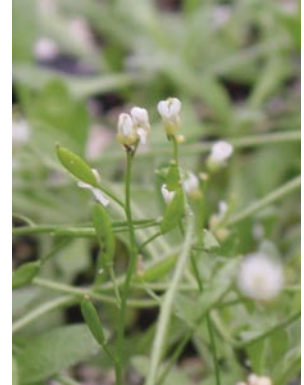

zones 4-8 · ○ DRABT
Gray-green cut leaves form evergreen cushions. Pink flower panicles April-May. Grows 3-5".

bruniifolia 'Olympica'

zones 3-7 · ○ DRAOL
Forms a moss-like carpet of green foliage with abundant golden flowers April-May. Grows to 2".

incana confusa

zones 3-7 · ○ DRAIC
Tidy rosettes of gray-green leaves topped with white blossoms in spring.

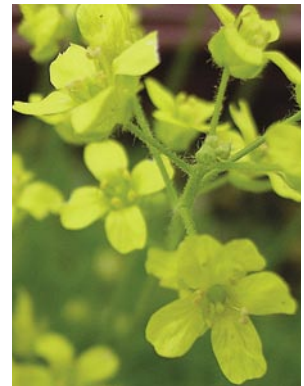

loiseleurii

zones 3-7 · ○ DRALO
This 4" mound-forming species bears dainty white flowers in spring.

ramosissima

zones 3-7 · ○ DRARA
NEW! Small white flower clusters and unique foliage bearing leaves with jagged margins and twisted seed pods. 6-8" tall.

rigida

zones 3-7 · ○ DRARI
Small leaved alpine groundcover adorned with 2-4" short stems of bright yellow flowers in spring.

sibirica

zones 3–7 · ○ DRASI
Prostrate foliage with 4-6" yellow flowers in April, appearing again in Oct. An appealing alpine.

DRACOCEPHALUM

Dragonhead

arguense 'Fuji Blue'

zones 4–8 · ○ DRAFB
Compact durable clumps of needle-like, leathery, dark green foliage with bright blue, tubular flower spikes all summer. Grows to 12".

arguense 'Fuji White'

zones 5–8 · ○ DRAFW
Compact durable clumps of needle-like, leathery, dark green

foliage with nice white, tubular flower spikes all summer. Grows to 12".

botryoides

zones 4–8 · ○ DRABT
Gray-green cut leaves form evergreen cushions. Pink flower panicles April-May. Grows 3-5".

rupestre (grandiflorum)

zones 4–8 · ○ DRARP
12" with deep intense blue flowers July-Aug. Dense, bush-forming habit.

ruyschiana

zones 3–8 · ○ DRARU
10-12" clump-forming, bushy plant with lovely blue flowers June-Aug.

DROSANTHEMUM

hispidum

zones 9–11 · ○ DROHI
Tiny succulent foliage bearing bright pink flowers all summer. An amazing bloomer.

EDRAIANTHUS

Grassy Bells

graminifolius

zones 4–6 · ○ EDRGR
6" tufts of grass-like blades send up violet-blue bells all summer.

graminifolius 'Albus'

zones 5–6 · ○ EDRGA
Grassy foliage with flowering stems ascending 4-6". Topped with clusters of large white bell-shaped flowers all summer.

ERIGERON

Fleabane

glaucus

zones 4–8 · ○ ● ERIGL
Low-growing perennial, grows to 8", with pale violet-blue and yellow flowers throughout summer and into autumn. Spreads to form a mound. Attracts butterflies.

glaucus 'Albus'

zones 5–8 · ○ ● ERIGA
Large white flowers on 8" stems, blooms June-Sept.

scopulinus

zones 5–8 · ○ ● ERISC
Mat-forming groundcover with silvery foliage and pink blooms in late spring and early summer.

tweedyi

zones 5–8 · ○ ● ERITW
Tight rosettes of oval, slightly lanceolate leaves. 6-8" stems bear 3/4" lavender fringed white daisies in late spring.

ERINUS

alpinus

Alpine Balsam
zones 4–7 · ○ ERIAL
A low-growing plant that has narrow fan-shaped to wedge-shaped, sticky leaves. The 1-2" tall flowers are comprised of short violet-red racemes that bloom from late spring to early summer.

alpinus 'Dr. Haehnle'
zones 4–8 · ○ ERIDH
Bright red flowers bloom over loose, mat-forming foliage from May-July. Grows 6".

alpinus 'Picos de Europa'
zones 4–10 · ○ ERIPE
Minute leaves with light pink flowers on 2" prostrate stems. Flower spikes appear in May and often later.

alpinus var. albus
Alpine Balsam
zones 4–7 · ○ ERIAA
A low-growing plant that has narrow fan-shaped to wedge-shaped sticky leaves. The flowers are short white racemes that bloom from late spring to early summer.

TOLL FREE 800-577-1760

ERIOGONUM

umbellatum

zones 5–8 · ○ ERIUM
Very long bloomer, from June until October, with yellow umbels on 8" stems. Attractive gray-green leaves.

ERODIUM

Heron's Bill

x variabile 'Flore-Pleno'
zones 4–8 · ○ ● EROFP
Tidy little groundcover featuring perfect little, star-shaped, soft pink double flowers, 2" tall, all summer long.

x variabile 'Roseum'
zones 4–8 · ○ ● ERORO
A showy geranium relative, this 2" tall, flat, mat-forming plant is always in bloom with pale pink blossoms and darker veins. Lovely alpine or trough plant which also works well in containers and with drier annuals. Not reliably hardy in most garden situations.

ERYSIMUM

Wall Flower

pumilum

zones 4–7 · ○ ERYPU
4" buns of foliage topped with dense panicles of large yellow blooms in May-June.

'Yellow Bird'

zones 3–7 · ○ ERYYB
12" golden yellow fragrant blossoms in April-May.

FESTUCA

Fescue

abbreviata

zones 3–8 · ○ FESAB
An incredibly cute little tuft of blue-green grass, growing only 1" tall! Perfect for a trough garden.

FRANKENIA

laevis

zones 6–9 · ○ FRALA
Flat mat-like foliage with pink flowers in the spring. Excellent texture for a trough garden.

GENTIANA

Gentian

septemfida var. lagodechiana

zones 3–7 · ○ GENSL
Compact, flat-growing form with large, intense blue blossoms in summer/fall.

asclepiadea 'Pink Swallow'

zones 5-8 · ○ GENPS

Intense pink flowered form on long stems, 15" tall in summer.

cruciata

zones 3-7 · ○ ● GENCR

Small blue flowers are borne on 12" stems of large leafy rosettes. July-Sept.

dahurica

zones 4-7 · ○ ● GENDA

Tubular purple-blue flowers on leafy stems in Aug. Grows to 10" in height. Requires lime-free soil. One of the easiest Gentians to grow.

dinarica

zones 3-7 · ○ ● GENDI

4-6" stems with delightful dark blue flowers in late spring.

gracilipes

zones 3-7 · ○ ● GENGR

10" rosette tufts with arching stems of purplish blue flowers from midsummer onward. Will tolerate some shade.

makinoi 'Royal Blue'

zones 3-7 · ○ ● GENRB

18-24" tall plant with 2-3" lanceolate leaves. Deep blue flowers in late summer.

paradoxa 'Blue Herold'

zones 3-7 · ○ ● GENBH

2' stems bear brilliant blue flowers in Aug.-Sept.

tibetica

zones 5-7 · ○ ● GENTI

Native to the Himalayas where it grows on exposed slopes in dry situations. 8-24" stems bear wonderful greenish to creamy white blooms in Aug.

GYPSOPHILA

Baby's Breath

aretoides

zones 4-7 · ○ GYPAR

Very dense cushion-forming plant with tiny gray-green foliage. Bears star-shaped, small white flowers in summer. Grows 3-6".

cerastioides

zones 3-7 · ○ GYPCE

Very low, clumping form reaches 2-4" in height. Pure white flowers form with distinct purple veins. Foliage may be evergreen in warmer areas. Excellent addition to the rock garden.

franzii nana compacta

zones 4-7 · ○ GYPNC

Petite blue-gray mound with 2" short pink flowers in summer.

HELIANTHEMUM

Sun Rose

'Apricot'

zones 6-9 · ○ HELAP

Intense pale apricot-colored, rose-shaped blossoms on 8" stems in spring. Ground-hugging habit, with small glossy foliage.

'Ben Nevis'

zones 6-9 · ○ HELBN

Tawny orange-gold flowers on 10-12" bushes in spring.
